VOTING A PROVISIONAL BALLOT

• Procedure
Eligible voters may vote a provisional ballot as provided by state or federal law. If, in accordance with federal law, you declare that you are a qualified elector of the precinct who is eligible to vote in the election, but your name does not appear on the poll list in an election for federal office, you will be allowed to cast a provisional ballot at the polling place after completing, in the presence of an election official at the polling place, a written affirmation that you are:
- A qualified elector of the precinct in which you desire to vote, and
- eligible to vote in the election.

If you are an Ohio voter who moved from one Ohio precinct to another Ohio precinct and did not update your voter registration, you may vote a provisional ballot as provided by state law.

The election official will select the Provisional Ballot option on the iVotronic voting machine and proceed to select your precinct specific ballot. The election official will provide you with instructions on how to vote the ballot.

After voting your provisional ballot, you will press the Vote button at the top of the iVotronic.

If the county board of elections determines that you are eligible to vote that ballot, your provisional ballot will be counted in the official canvass of the election.

• Confirmation
As a person voting by provisional ballot in an election for federal office, you are entitled to written information describing how you may learn, through a free access system, whether your provisional ballot was counted by election officials, and if it was not counted, why not.
