EXHIBIT 13
Declaration of Linda Townsend Johnson

I, Linda Townsend Johnson, hereby declare as follows:

1. I am 39 years old, a United States citizen, and a resident of the state of Colorado. My address is 2615 Verde Drive, Apt. 330, Colorado Springs, Colorado, 80910 in El Paso County. I have never been convicted of a felony, and I have never been found mentally incapacitated with respect to voting.

2. I moved to Colorado from Mississippi State in January of 2008. I have only ever had one address in Colorado, the one listed above. I am a long time voter and have been voting since the age of 18.

3. My Social Security card and Colorado state identification card both list my name as Linda Townsend Johnson.

4. On or about May of 2008, I registered to vote while walking through a shopping mall in Colorado. My husband registered at that time as well. Shortly thereafter, I received a voter registration card in the mail. It also lists my name as Linda Townsend Johnson.

5. I never received a letter or mailing from any election office stating there was any problem with my voter registration.

6. On or about the first week of October 2008, I received a mail-in ballot for the 2008 general election. It was addressed to me and sent to my correct address.

7. On October 20, 2008, I received a telephone call from two attorneys representing the Plaintiffs who informed me that my name and my husband’s name appeared on a list of voters whose registrations had been cancelled. Although I was planning on completing and
mailing my mail-in ballot the next day, I decided to wait until I was assured that I was correctly registered and my vote would count.

8. On October 21, I spoke to an attorney representing the Plaintiffs who suggested that I call my county election office to find out the status of my voter registration. The next day, I telephoned the El Paso County Clerk’s office and asked an election official whether I would be able to vote. The election official told me no, I would not be able to vote, because my application was incomplete because they did not have any address on file. She said we could re-register through the internet, but she never explained to me how this would correct the problem. This also did not make sense to me, because I knew the deadline for registering had already passed and I knew they already had my correct address because I received mailings from them. When I explained that I was concerned that this would not fix the problem, she said I could come down to the County Clerk’s office to re-register.

9. On October 23, I went to the County Clerk’s office with my husband. We explained to a staff person that we were having problems with our registration. The staff person looked up our files and told me that I could not vote because they did not have any address on file. When I showed the staff person my voter registration card and mail-in ballot, she typed something into the computer and told me that I had been “reinstated.” She agreed that something strange had happened with my registration record, but she did not know what. She also reinstated my husband. I do not know if I would have been reinstated if I had misplaced or lost my voter registration card.

10. I am very upset that my registration was cancelled without informing me and that I might have mailed in my ballot without first clearing up this problem. This was very surprising because both my voter registration card and ballot were mailed to my correct address even
though the Clerk’s Office said I had no address on file. If we had not been contacted by Plaintiffs’ attorneys I would never have known that my registration had been cancelled, especially since I was led to believe there was no problem because I had been mailed my voter registration card and mail-in ballot.

11. I believe that voting and my right to vote are very important. I am eager to vote for candidates that share my values and beliefs and have ideas of leadership I want America to follow. I will still vote, but I am concerned that other people may have trouble voting, or their votes may not count, because of mistakes like the one that cancelled mine and my husband’s records.
I declare under penalty of perjury under the laws of the state of Colorado that the
foregoing is true and correct to the best of my knowledge.

DATED this 24th day of October 2008 in Colorado Springs, Colorado.
