Supporters of the Partnership for Ohio’s Future

Support for the educational campaigns conducted by the Partnership for Ohio’s Future comes from the Ohio Chamber of Commerce and some of our nation’s and state’s most prestigious business and professional associations.

The Partnership is also proud to receive support from scores of companies -- both large and small -- that are investing in our state and providing jobs for Ohio citizens. Because of their generosity, the Partnership is able to carry out its mission of educating the public about the issues that impact Ohio’s economy.

In 2010, the following companies and organizations generously helped support the program of work carried out by the Partnership for Ohio’s Future:
