DEFENDANT’S
EXHIBIT A
Dear Voter Registration Applicant:

When you registered to vote, you filled out an application that gave your local county registrar information about who you are. Federal law requires that this information be compared with information on file with your driver's license file at the Department of Driver Services. When that happened, though, there was some information that did not match up. We are writing you to let you know that and to tell you what you can do to clear up any questions about your voter registration application that were raised by this process.

One of the pieces of information that did not match up for you was whether you are a United States citizen. When you registered to vote, you said that you were a citizen, but the Driver Services record does not match that information. Under state and federal law, you must be a citizen to register to vote, so this is a very important question to answer.

In order to clear up this question, you should contact your local county voter registrar immediately and provide the registrar with documents that show your citizenship. A list of the types of documents that you could show is included with this letter. You should do this before you vote, but not later than 5:00 p.m. on Thursday, July 22, 2010. If you do not, your local registrar will schedule a more formal hearing to look at this question. This hearing may be held in your county as early as Friday, July 23, 2010 and you will get a separate letter from the registrar explaining that. You will still be able to vote in the upcoming July 20, 2010 general primary even while you are and the registrar are working on this question. However, your local election officials will ask you to vote on a paper ballot rather than on an electronic voting machine until this question is resolved. Once you have shown proof of your U.S. citizenship, your vote will be counted.

Sincerely,

Brian P. Kemp
