OF STATE

compiled by the
Bureau of Elections

September 1, 1999

TO: Motor Vehicle Division Managers and Staff:

In January of 1995, the National Voter Registration Act became effective in New Mexico.

In summary, this Act requires that opportunities for voter registration be provided at designated state agencies. In addition to motor vehicle offices, state agencies providing public assistance or serving the disabled, agencies serving armed services veterans and armed forces recruitment centers, many public libraries, universities and colleges also participate in this important endeavor.

Thus far, through the efforts of thousands of dedicated public employees, New Mexico has registered over 200,000 new voters.

However, there is still much to be done. A significant number of eligible citizens remain unregistered and to successfully involve all our citizens in full participation, we need to continue our efforts.

This manual has been prepared to assist you and your staff in our state's continuing compliance with the National Voter Registration Act.

I want to take this opportunity to thank each and every employee of your library for their past achievement in voter registration efforts and ask for your cooperation in the future to enable each and every eligible citizen to participate in the most basic element of our democracy.

Sincerely,

[Signature]

Rebecca Vigil-Giron
Secretary of State
January 25, 2000

Office Manager:

As part of New Mexico’s continuing compliance with the provisions of the National Voter Registration Act of 1993, PL 103-31, the Office of the Secretary of State, Bureau of Elections, is forwarding a new manual to your office.

The National Voter Registration Act became effective in New Mexico on January 1, 1995 and, through the efforts of thousands of state employees, college and university registrars, librarians and armed forces recruiters, nearly 200,000 new voters have registered.

In order for our office to comply with the requirements of the act, we must report to Congress every two years. In order to do so, we have assigned each participating office a site code, which must be entered on the voter registration form. This enables your agency to comply with the requirements of the Act and avoids enforcement activities by either our state’s Attorney General or the Department of Justice.

Please review your manual and share it with your employees. Your site code has been entered on the sample voter registration form in the manual and must be entered on each registration completed at your office.

Should you have any questions or comments, please contact this office at 827-3600, or 1-800-477-3632.

Sincerely,

Denise Lamb, Director
Bureau of Elections

MOTOR VEHICLE-BASED
VOTER REGISTRATION:
MVD's Role under NVRA
What is a Registration Agent?

A registration agent is a state employee who provides voter registration at a state agency or any other individual who assists another person in completion of a voter registration application.

Registration Agent qualifications

A registration agent must be able to read and write legibly and be otherwise competent to perform the duties required under the NVRA.

Duties of the Registration Agent

Registration Agents may perform their lawful duties at any location within the State of New Mexico. They shall provide any qualified elector with an opportunity to register to vote regardless of political affiliation, religion or race; and, shall perform their lawful duties without charge as follows:

1. shall assist in the preparation of the voter registration application of qualified electors at the request of the applicant; and

2. may assist a voter in any changes to the voter registration application (i.e. name, address or party affiliation).

Providing assistance — how much is enough?

Motor vehicle offices providing voter registration must provide the same degree of assistance, including bilingual assistance when necessary, to individuals completing a voter registration form as they offer to individuals completing the motor vehicle office forms, unless the applicant refuses such assistance.

Active outreach required

The National Voter Registration Act requires that motor vehicle licensure and voter registration be offered simultaneously. Applicants for a driver’s license, renewal, change of address, identification card, or a change of voter registration must always be offered both forms.
Applicants may decline the opportunity to register to vote by simply refusing to sign the application to register. However, the individual must always be presented with a voter registration application along with the driver’s license application (or state-issued I.D. card). Information regarding an individual’s failure to sign cannot be used for any purposes other than voter registration.

Also, the information on the particular office where an individual registered must remain confidential and be used only for voter registration purposes.

Finally, any change of address submitted for a motor vehicle driver’s license at the site shall also serve as a change of address for voter registration purposes unless the individual states on the application that the change of address is not for voter registration purposes.

Each motor vehicle office must appoint one person to be in charge of and responsible for all motor voter activities (see page 16). This individual will monitor supplies of forms, train new employees and coordinate voter registration activities with local and state election officials. While not a full-time task, it will be continuous.

Collection or transmittal of completed voter registration applications must take place every 10 days. Careful and regular coordination with county clerks is necessary.
No duplication of information requests made of the applicant

In order to streamline the process, federal law requires that any information needed for motor vehicle purposes — which can also be used for voter registration — be requested of the applicant only once. Thus, the registration procedure is designed to ensure that name, address, gender and social security number information obtained for the applicant’s driver’s license be saved for subsequent use in filling out the voter registration application.

There is one exception to this rule: the applicant’s signature and date (item 6, see page 9). The voter registration application does require the applicant to provide a second signature.

The duplicate information used for driver’s license, renewal, change of address, or identification card — which is also required for voter registration — is contained in Items 1 – 3 of the voter registration application (see page 9). The process of capturing this duplicate information is designed to occur automatically. When this information is key-entered for motor vehicle purposes, the computer system will temporarily retain it in memory. Immediately upon completion of motor vehicle processing, the registration agent should then insert the voter registration application into the printing device. The retained information will automatically be printed out.

The Registration Agent should then present the voter registration application to the applicant, who is directed to complete any remaining items on the form.
THE VOTER REGISTRATION APPLICATION:
Doing it by the Numbers
Applicants May Register if they meet the following requirements:

1. the applicant is a citizen of the United States;
2. the applicant is 18 years of age, or will have reached that age prior to the next election; and
3. the applicant has not been denied the right to vote by reason of mental incapacity or felony conviction.

NOTE: A person may register to be eligible at any time, as there are no residency requirements. However, in order to vote in the next election, the applicant must register at least 28 days prior to that election.

Registration Agents Please Note

the following information is essential IF A VOTER REGISTRATION APPLICATION IS TO BE ACCEPTED BY A COUNTY CLERK:

1. name
2. physical address (not a post office box)
3. birth date

Please be aware that an individual cannot be compelled to give their social security number as a qualification for voter registration.

Registration Agents are not responsible for verification of the truth of any information contained in a voter registration application and are only providing an applicant with the opportunity to register to vote. Agency personnel do not determine if the applicant is qualified to register to vote. However, forms should be reviewed to make sure they are filled out completely.
When providing voter registration service to an applicant, please take note of these four considerations:

☐ The use of black ink is recommended. Please print legibly.

☐ If any applicant is unable to read or write in either the English or Spanish language, or is unable to read or write due to physical disability, the voter registration application shall be filled out by the registration agent, who shall then sign Item 7 (see page 9) to indicate that assistance was provided.

☐ If an error is made while filling out application, the registration agent shall mark voter registration application as "VOID" and it shall be returned with completed voter registration applications to the county clerk.

☐ The registration agent shall instruct the applicant to fill out only those items numbered in red. The shaded areas at the bottom of the form are for the use of the county clerk. The shaded area to the right of Item 3 (see page 9) is to be used by the agency for insertion of the agency site code.

TELEPHONE NUMBER

The telephone number is optional and may only be made public for election purposes. The choice is up to the applicant and the voter registration application may not be rejected for refusal to give the telephone number.

ATTESTATION OF QUALIFICATION

The applicant should carefully read the attestation before signing. The voter registration application also needs to be dated to the right of the signature line.

This line is to be filled in only if a registration agent provided substantial assistance in filling out the form for the applicant. It DOES NOT have to be signed by agency intake personnel unless the assistance provided includes the actual filling out of the form.

The 5 Steps

1. After completion of the initial data required from the client and print out of motor vehicle form, place voter registration form in printer to capture information which is identical on both forms. These are items 1 through 3 on the voter registration form.

2. After printing of data on voter registration form, return form to applicant for the completion of items 4 through 6. **THE APPLICANT IS NOT TO FILL IN ANY SHADED AREAS ON THE FORM.**

3. Unless the applicant refuses assistance, provide the same degree of assistance in completion of the voter registration form as would be provided to the applicant in completion of motor vehicle office forms, including bilingual assistance, if necessary.

4. Refusal to sign the completed voter registration application when presented to the applicant serves as the applicant's declination to register to vote.

5. Direct applicant to place completed voter registration form in area designated by site coordinator, whether it is signed or not.

Motor Vehicle Division personnel involved in agency voter registration activity are PROHIBITED from:

- seeking to influence an applicant's political party preference;
- displaying any political preference or party allegiance;
- making any statement or taking any action whose purpose or effect is to discourage the applicant from completing the voter registration application; or
- disclosing to any other individual that the applicant has applied to register to vote at a motor vehicle office.
RESPONSIBILITIES OF MVD SITE COORDINATOR

Putting Someone in Charge

1. Monitor supplies of forms and contact the county clerk’s office, when necessary (county clerks are instructed to monitor inventories of forms as part of the collection and/or transmittal process and any difficulties encountered should be reported to the Bureau of Elections in Office of the Secretary of State).

2. Create a secure area to store forms for collection or transmittal.

3. Train office personnel in the review of voter registration forms to ensure they are completed in their entirety by applicants who have requested assistance.

4. Ensure that office personnel understand that they may not influence or attempt to coerce applicants to declare a political party preference and may not discourage registration verbally or by attitude.

5. Return all completed or voided voter registration applications to the county clerk within ten (10) calendar days; however return shall not be made later than 5:00 p.m. on the Friday immediately following the closing of the registration books for the upcoming election.
