August X, 2007

As Georgia’s Secretary of State, I need your help to inform Georgians of an important public announcement concerning Georgia’s election law regarding voter photo identification.

Georgia law requires registered voters to show photo identification in order to vote in person. This applies for the Special Elections on September 18, 2007 Special Elections and will continue for all future elections in Georgia.

We want to ensure that all of Georgia’s voters are fully informed about this requirement. This is where you can help — we are able to provide you with brochures or fact sheets to distribute to your visitors, customers, and employees or posters for your facilities. We even have prepared information for you to publish in your newsletter.

If you can participate, please call our office at (404) 656-2881 and we will send the brochures, posters, or fact sheets. Or, for more information you can visit our website at www.GaPhotoID.com.

Thank you for your support and for helping us ensure that every Georgian has the opportunity to vote and to make a difference.

Sincerely,

Karen C. Handel
