43. The State election Officials admit the allegations of paragraph 43. The State Election Officials state further that all of those challenges, including those made by Montiel and Plaintiffs John and Camilla Rice, failed.

44. With respect to the allegations of paragraph 44, the State Election Officials admit that the legislative elections in 1994 and 1998 were conducted using the district lines that were established in the *Sinkfield v. Camp* consent judgment and that the 2000 Census discloses that the population has shifted since the 1990 Census was taken. The State Election Officials deny the remaining allegations of paragraph 44.

45. With respect to the allegations of paragraph 45, the State Election Officials admit that Acts 2001-727 and 2001-729, which were the product of a special legislative session that began on June 25, 2001, were duly enacted, signed, and precleared. 47. With respect to the allegations of paragraph 47, the State Election Officials admit that, according to the 2000 Census, if absolute population equality for Alabama's legislative districts were required, the total population of an ideal Alabama State Senate district would be 127,060 people, but deny any allegation, express or implied, that absolute population equality is required.

48. With respect to the allegations of paragraph 48, the State Election Officials admit that: according to the 2000 Census: Senate District 8 is the most populous Senate district, has a total population of 133,302, and that it exceeds the population of an ideal Senate district by 4.913%; that Senate District 6 is the least populous Senate district, has a total population of

The State Election Officials state further that, because of any analysis of over- and under-population is properly done with reference to the population of an ideal district, the numbers cited by Plaintiffs Lang and Camilla Rice are meaningless.

50. With respect to the allegations of paragraph 50, the State Election Officials admit that, according to the 2000 Census, the total population of SD 22 is 132,304 and deny the remaining allegations. The State Election Officials state further that, because of any analysis of over- and under-population is properly done with reference to the population of an ideal district, the numbers cited by Plaintiffs Lang and Camilla Rice are meaningless.

Indeed, because those Plaintiffs live in districts that have fewer people than the ideal House district, they lack standing to complain about population deviations.

59. The State Election Officials deny the allegations of paragraph 59 because they are moot. The point is whether new redistricting plans were duly enacted, signed, and precleared, which they were, not when the legislature acted.

GENERAL DEFENSES

FIRST DEFENSE

Plaintiffs John Lang and Camilla Rice lack standing to complain about the alleged overpopulation of certain Senate districts because they live in Senate districts that are underpopulated by reference to the ideal population of a Senate district.

SECOND DEFENSE

Plaintiffs Gonzalo Montiel, Sheldon Day, John Lang, and Camilla Rice lack standing to complain about the alleged overpopulation of certain House districts because they live in House districts that are underpopulated by reference to the ideal population of a House district.

THIRD DEFENSE

The State is not required to justify any and all population deviations from the ideal population because the maximum overall deviation in the redistricting plans for the State Senate and House of Representatives is less than 10%. *Brown v. Thomson*, 462 U.S. 835 (1983); *White v. Regester*, 422 U.S. 935 (1975).

FOURTH DEFENSE

Assuming for the sake of argument, but without admitting, that the State must explain any and all deviations from the ideal district population, Plaintiffs cannot carry their burden to show that the minor population deviations in the plan result solely from the promotion of an unconstitutional or irrational state policy. *Marylanders for Fair Representation v. Schaefer*, 849 F. Supp. 1022, 1032 and n. 9 (D. Md. 1994)(three-judge court).

FIFTH DEFENSE

Race did not predominate over other traditional districting criteria in the drawing of House District 68.

SIXTH DEFENSE

Race did not predominate over other traditional districting criteria in the drawing of Senate District 24.

SEVENTH DEFENSE

Race did not predominate over other traditional districting criteria in the drawing of House District 70.

EIGHTH DEFENSE

Race did not predominate over other traditional districting criteria in the drawing of Senate District 28.

NINTH DEFENSE

Race did not predominate over other traditional districting criteria in the drawing of House District 83.

AFFIRMATIVE DEFENSES

1. The amended complaint fails to state a claim upon which relief may be granted.
2. Plaintiff's claims in this action are pretexts for the partisan political agenda of certain Republicans. Plaintiffs and their counsel, who is plaintiff Montiel's son, are activists in the Republican Party, and, as stated publicly by the Chairman of the Alabama Republican Party, their purpose in commencing and maintaining this action is not to vindicate individual rights of any

particular citizen but to ask this U.S. District Court to sit as an overseer or supervisor of the legislative process mandated by the Alabama Constitution to redraw the boundaries of Legislative, Congressional and State Board of Education districts. See Attachments A through J to the answer of Guin and Hayden to the original complaint. Democrats hold substantial majorities in both houses of the Alabama Legislature, and the House and Senate plans signed by the Governor on July 3, 2001, were adopted with the support of strongly unified Democratic Caucuses. Throughout the special session, Republican leaders openly announced their intentions to challenge the plans in court, even though, in the end, many Republican legislators thought the plans were fair and voted for them. Resort to the courts for the purpose of advancing purely partisan objectives is an abuse of the judicial process.

3. The purely partisan aims of the amended complaint present nonjusticiable political questions, and this action should be dismissed. *Baker v. Carr*, 369 U.S. 186, 226-27 (1962).

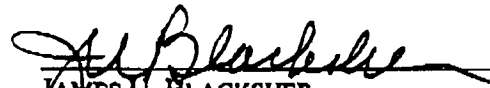

4. Plaintiffs' claims, including newly added racial gerrymandering claims, are also pretexts for an attack on the democratic and voting rights of black citizens, and the relief sought by the complaint would violate the rights of black citizens of Alabama under the First, Thirteenth, Fourteenth and Fifteenth Amendments to the Constitution of the United States and under the Voting Rights Acts of 1957 and 1965, as amended, 42 U.S.C. §§ 1971 et seq. Defendants-Intervenors allege that denying black citizens an equal opportunity to participate in the political processes leading to the restructuring of the democratic branches of government and denying black citizens an equal opportunity to elect candidates of their choice are among plaintiff's ultimate unlawful objectives in this action.

5. Plaintiffs' claims are also pretexts for an attack on the rights of citizens of all races in

Alabama, under the First and Fourteenth Amendments to the Constitution of the United States, to associate politically and to pursue their legitimate interests on an equal basis through the democratic processes leading to the election of members of the Alabama Legislature and through the constitutionally mandated legislative processes leading to redrawing legislative, congressional and State Board of Education districts.

WHEREFORE, Defendants-Intervenors pray that judgment be entered in favor of defendants and defendants-intervenors and that this action be dismissed.
