A Law and Policy Journal for the (Information) Revolution!

For Students: Why Join I/S?

New information and communication technologies are transforming our economic, social, and political life. I/S: A Journal of Law and Policy for the Information Society explores that transformation.

- Care about business? We do e-commerce.
- Care about crime? We explore cybercrime.
- Care about intellectual property? We care about IP rights in cyberspace.
- Care about politics? We do e-democracy.
- Care about national security? We explore cybersecurity and the impact of new technologies on both privacy and civil liberties – as in our 2014 “paper symposium” on the NSA surveillance controversies.

Whatever aspect of law, business, or society you care about, we’re interested in how it intersects with the digital world.

Each year, I/S stages a major symposium on a hot topic at the intersection of law, policy and information technology. Recent conference topics include:

- Online Consultation and Public Policy Making: Democracy, Identity, and New Media (2008)
- Mashup/Remix (2009)
- Youth and Social Media (2010)
- Cybersecurity Policy (2011)
- The Future of Online Journalism (2012)
- Competition and Innovation in the Broadband Age (2013)
- Big Data Future (2014)

The selection of I/S articles represents a collaboration between student editors and a distinguished international editorial board including experts and thought leaders both inside and outside the academy.
Because the law surrounding new information technologies is mushrooming, lawyers attuned to the regulatory issues surrounding such technologies will have a huge advantage, whether serving in government or counseling clients. Our editors have gone on to significant “information age” legal and business careers, often focused on intellectual property, privacy, or other specialties where new technologies are driving legal change. I/S also has a long-standing relationship with the International Association of Privacy Professionals, whose leadership is committed to facilitating training and education opportunities for students interested in becoming privacy specialists.

Do you need a science, engineering, or technological background to be a successful I/S member? No! What you need is intense curiosity about the future and a commitment to helping to publish exciting new scholarship shedding light on that future.

For Authors: Why Publish in I/S?

I/S is an interdisciplinary journal of research and commentary concentrating on the intersection of law, policy, and information. Among our first decade’s authors are communication scholars, computer scientists, economists, engineers, information scientists, journalists, political scientists, and sociologists, not to mention such leading legal scholars as Michael Froomkin, Gillian Hadfield, Jay Kesan, Ed Lee, Larry Lessig, Beth Noveck, John Palfrey, Pam Samuelson, Rebecca Tushnet, Christopher Yoo, and the journal’s founders, Peter Shane and Peter Swire. We are delighted to receive student-authored submissions, as well as interdisciplinary manuscripts that faculty create in collaboration with their graduate and professional students.

I/S publishes three issues a year – typically, a “Symposium Issue,” containing papers arising from the previous term’s I/S conference, an issue devoted to privacy and cybersecurity topics, and an issue containing the best of the unsolicited manuscripts we receive on other topics at the intersection of law, policy, and information, communication and computing technologies.

I/S authors keep their own copyrights, extending to I/S a free, perpetual, nonexclusive license to publish and republish their work. I/S is included on both Lexis and Westlaw.

I/S is a peer-reviewed journal. Our International Editorial Board includes thought leaders both within and beyond the academy – including a significant contingent of faculty from Carnegie Mellon University, whose public policy school – now part of Heinz College – was a founding co-sponsor of I/S. Authors whose manuscripts are accepted for publication and who choose to publish with I/S receive substantive feedback from members of its distinguished editorial board, as well as our student board’s assistance in polishing final manuscripts. Accepted manuscripts may also be posted as “Works in Progress” on the I/S web site immediately upon agreement to publish with the I/S journal.

I/S ALUMNI REFLECT ON THEIR EXPERIENCE

Natalie Bennett ‘09
EDITOR IN CHIEF
Associate, McDermott Will & Emery LLP
“I/S demanded I grow as a leader while developing strong writing, editing, and research skills. I graduated from Moritz equipped to litigate patent disputes in the networking/software sectors.”

Lindsay Gladysz ‘12
EVENTS EDITOR
Cyber Security and Privacy Analyst, SRA International
“I/S gave me access to top minds in the field, excellent networking opportunities, a publishing forum, and insight into the future of tech policy and law.”

Asim Haque ‘06
BOOK REVIEW AND STUDENT RESEARCH EDITOR
Commissioner, Public Utilities Commission of Ohio
“I have worked for a large law firm, in-house at a global manufacturer, and now in high-level government, and the issues that the I/S Journal addresses form what is undoubtedly the most needed substantive expertise in the legal industry today.”

Jonathan Hsu ‘11
ISSUE EDITOR
Staff Attorney, Ohio Environmental Review Appeals Commission
“I/S was a great help in learning to appreciate the importance of effective communication and understanding between lawyers and technical professionals.”

Jasmine Jackson ‘11
EDITOR IN CHIEF
Petroleum Landman, Turner Oil & Gas
“Membership in I/S meant the opportunity to learn from and interact with a variety of policy makers and practitioners as they shape the future of technology, privacy, and information policy issues facing the world today.”

Mike E. Jones ‘08
COMMENTARIES AND BOOK REVIEW EDITOR
Global Privacy Program Manager, Monster Worldwide, Inc.
“I/S was the single best thing I did in law school. I can confidently say I would not be where I am today without the experience and mentorship I received in the two years I spent working on the journal.”

Saif M. Khan ‘10
SENIOR EDITOR
Intellectual Property Counsel, Hewlett-Packard
“I/S deepened my education in IP and technology law, benefiting my past work in IP law firms and current work in HP’s patent development group.”
Kirk Koehler ‘07
ISSUE EDITOR
Senior Director, Privacy, Walmart
“I consider I/S to be integral to my career. It opened incredible networking opportunities with key leaders in the privacy field and led directly to the opportunity to work for Walmart. In addition, I/S provided access to emerging legal and compliance technology issues that are directly relevant to my work.”

Erin Wright Lothson ‘08
EDITOR IN CHIEF
Corporate Counsel, Intellectual Property, Groupon, Inc.
“I/S taught me to have a razor-sharp focus on the details, which is a skill that I rely on heavily as in-house counsel at a seven billion dollar tech company.”

Traci Martinez ‘08
FORMATTING EDITOR
Senior Associate, Labor & Employment Group, Squire Sanders
“I use the knowledge I gained working on the I/S Journal to provide advice to our clients concerning social media issues they face with their employees.”

Lindsay Shanahan ‘13
SENIOR EDITOR
Counsel, Broadband Research and Planning, Connected Nation
“Through I/S, I gained insight into the policy and legal issues facing the telecommunications and information technology fields - knowledge necessary for my later career.”

Marjorie Yano ‘10
EDITOR IN CHIEF
Associate, Bricker & Eckler LLP
“I/S provided me with the opportunity to expand enormously my understanding of the ways in which law and policy interact and how each influences the other.”

Oliver Zeltner ‘12
EXECUTIVE EDITOR
Associate, Business Restructuring & Reorganization Practice Group, Jones Day
"I/S gave me the opportunity to work collaboratively with people I genuinely liked and to help build the reputation of a thriving young journal."
