

## Real Estate Residency Program

To meet the demands of the evolving real estate law market and provide opportunities for students interested in the field, the Moritz College of Law, in partnership with major real estate organizations, is growing its Real Estate Program through the creation of the Real Estate Residency Program. This Program will place current Moritz law students in salaried positions within Ohio real estate firms and organizations. These residencies will provide students with valuable experiences and insight and our partners with valued legal support. The residencies are also designed as networking opportunities that, coupled with the experience, will provide a competitive edge towards full-time careers in the industry.

Under the Real Estate Residency Program, residents will gain paid (\$20/hour), hands-on experience that will begin as a full-time commitment during the summer prior to the resident's 3L year. The residency term will continue throughout the 3L school year as a part-time commitment, requiring up to 10 hours each week. Residents may also benefit from exclusive programming during the year specifically designed to enhance their understanding of real estate practice beyond their particular placement.

We will post the Real Estate Residency Program positions on Symplicity, including a brief job description about each opportunity. Interested students will be required to submit application materials as requested by the employer, such as:

- Resume
- Transcript
- Cover Letter
- Other

Partners will select students based a review of these documents and possibly interviews managed by the Moritz Career Services Office.

We are very excited about the success of the first year of this program and look forward to the continued participation of students with interest in the real estate field. If you have any questions, please contact:
