About Group

Group Description

"Citizens United for Rehabilitation of Errant" CURE-Ohio is a non-profit, tax-exempt, prisoner advocacy organization that focuses on educating the Ohio public and our elected leaders about the need for responsible prison management, humane treatment of those incarcerated, fairness in the parole process, training in job and life skills for all Ohio's prisoners, and opportunities for employment, housing, and medical care after release. We seek to accomplish the restoration of our communities by promoting effective rehabilitative and restorative programs in Ohio's prisons, as well as effective and less-expensive alternatives to incarceration, including drug treatment.

Are you a prisoner or former prisoner? Do you have a friend in or loved one in prison? Are you concerned about skyrocketing incarceration rates, the social effects of high incarceration upon families and communities, fair sentencing, high recidivism rates, the death penalty, or humane prison living conditions? Are you horrified at the exorbitant telephone rates that citizens must pay to talk to their friends and family members in prison? Are you a prisoner or ex-prisoner in search of support, or a person on the outside who is interested in advocacy work and lobbying for social change? If you answered "yes" to any of these questions, CURE-Ohio is a grassroots nonprofit that you should consider joining!
