If you have the schedule flushed out and everything documented and ready to transmit to PLM per the call, don't wait on me.

Otherwise I'll look at the press release when I get back.

Governor McCrory Signs Popular Election Reform Legislation

"INSERT QUOTE FROM APPROVED RELEASE." - Governor Pat McCrory

Strong Public Support:

- A March Elon University poll showed **72 percent** North Carolina support.
- A March Civitas Institute poll showed **67 percent** North Carolina support.
- An April Survey USA poll showed **75 percent** North Carolina support.

Election Reform At a Glance:

- Photo ID is required at the polling location
 - All that is required is a valid NC driver's license, a U.S. passport, or military IDs. **Does not include student IDs.**
 - If a voter cannot afford the fee for a valid NC driver's license, **a state-issued photo ID can be easily obtained from the DMV for FREE.**
 - If a voter comes to the polls without a photo-ID (*i.e. they left it at home*), they may still cast a provisional ballot and **then later provide e their photo-ID identity.**
- **More efficient and uniform early voting to maximize equality in access**
 - Early voting remains in place for a full 10 days
 - The hours available to cast an early ballot are unchanged.
- All early voting sites in a county must have **the same days and hours.**
- Lessens the bureaucratic burden of ~~preof pre~~-registering underage voters.
- Continues efforts to eliminate pay-to-play culture by placing additional campaign finance restrictions on lobbyists.
- Ensures voters are voting for the person, not the political party

Comment [SoN1]: I'm still going to note for the record: the point of these fact sheets is to provide like-minded advocates with information that will help them advocate for our shared agenda items. This gives a controversial fact with no defense of it. We will get attacked on this and our folks won't be able to push back.

Comment [SoN2]: "Proving their identity sounds Orwellian. I should have caught it earlier."

North Carolina Joins the Majority of States:

- Similar election reform efforts to protect the integrity of the ballot box have been adopted by a majority of states. North Carolina is not unique – states that do not work as hard to protect their ballot boxes are in the minority:
 - NC will still be one of **33 states and DC** to offer early voting.
 - NC will be one of **34 states** that requires or will require some form of voter ID.
 - NC will be one of **36 states and DC** that do not allow straight-ticket voting.
 - NC will be one of **37 states** that do not allow same-day registration.
 - NC will be one of **43 states** that does not allow underage voters to pre-register. (Source: <http://www.ncsl.org/legislatures-elections/elections/voter-id.aspx>)

Other Things You Need Identification For:

- To get on an airplane.
- To buy alcohol and tobacco.
- To buy Sudafed.
- To get a job.
