**Raleigh Area Minimum Bounding Geography**

	5		10		DMV Sites 2014/02/01
	6		11		Counties
	7		12		
	8		13		
	9		14		

Voter locations used are based on the "Unmatched Voters\_DMVID.xlsx" file produced by the State Board of Elections. Residence addresses were geocoded against the "address\_points\_sboe.txt" voter address point file produced by the State Board of Elections. Only voter residences with a perfect geocoding match score (89% of records in the original file) were used to derive the service area polygons.
