CASE NO. 1:12-CV-00128  
(RMC-DST-RLW)  
Three-Judge Court

**REQUEST FOR JUDICIAL NOTICE**

Pursuant to Rule 201(b)(2) of the Federal Rules of Evidence, the United States respectfully asks the Court to take judicial notice of the following facts based on data produced

by the U.S. Census Bureau.<sup>1</sup> Unless otherwise specified, these facts reflect the aggregation and allocation of multiple race respondents as set forth in guidance issued by the Office of Management and Budget, OMB Bulletin 00-02 (Mar. 9, 2000), *available at* [http://www.whitehouse.gov/omb/bulletins\\_b00-02](http://www.whitehouse.gov/omb/bulletins_b00-02), and the Department of Justice, 76 Fed Reg. 7470, 7472 (Feb. 9, 2011), 66 Fed Reg. 5411, 5414 (Jan. 18, 2001). For example, the population counts for non-Hispanic Black persons include all persons who self-identified on the census as Black alone or in combination with White, and who self-identified as not Hispanic. Similarly, the population counts for Asian persons include all persons who self-identified on the census as Asian alone or in combination with White, and who self-identified as not Hispanic. This is the appropriate allocation method in a Section 5 case involving more than one minority group. *See Georgia v. Ashcroft*, 539 U.S. 461, 474 n.1 (2003). All census data supporting these facts are attached.

1. According to the 1990 Census, the State of Texas had a total population of 16,986,510 persons, including 10,291,680 non-Hispanic White persons (60.6%), 4,339,905 Hispanic persons (25.5%), 1,976,360 non-Hispanic Black persons (11.6%), and 303,825 non-Hispanic Asian persons (1.8%).<sup>2</sup> *See* Ex. 1 at 3.
2. According to the 1990 Census, the State of Texas had a voting-age population of 12,150,671 persons, including 7,828,352 non-Hispanic White persons (64.4%), 2,719,586 Hispanic persons (21.1%), 1,336,688 non-Hispanic Black persons (11.0%), and 213, 294 non-Hispanic Asian persons (1.8%). *See* Ex. 1 at 4-5.

---

<sup>1</sup> *See Hollinger v. Home State Mut. Ins. Co.*, 654 F.3d 564, 572-73 (5th Cir. 2011) (“United States census data is an appropriate and frequent subject of judicial notice.”); *City of Port Arthur v. United States*, 517 F. Supp. 987, 993 n.5 (D.D.C. 1981) (taking judicial notice of 1980 Census “in accordance with the law”).

<sup>2</sup> The 1990 Census did not permit respondents to self-identify as a member of more than one racial group. As a result, population counts from the 1990 Census cannot be aggregated in accordance with OMB Bulletin 00-02.

3. According to the 2000 Census, the State of Texas had a total population of 20,851,820 persons, including 10,933,313 non-Hispanic White persons (52.4%), 6,669,666 Hispanic persons (32.0%), 2,399,083 non-Hispanic Black persons (11.5%), and 594,932 non-Hispanic Asian persons (2.8%). *See Ex. 2 at 2.*
4. According to the 2000 Census, the State of Texas had a voting-age population of 14,965,061 persons, including 8,426,166 non-Hispanic White persons (56.3%), 4,282,901 Hispanic persons (28.6%), 1,639,173 non-Hispanic Black persons (11.0%), and 437,215 non-Hispanic Asian persons (2.9%). *See Ex. 2 at 5.*
5. According to the 2000 Census, Texas had a citizen voting-age population of 13,299,845 persons, including 8,305,993 non-Hispanic White persons (62.5%), 2,972,988 Hispanic persons (22.4%), 1,590,832 non-Hispanic Black persons (12.0%), and 225,374 non-Hispanic Asian persons (1.7%).<sup>3</sup> *See Ex. 2 at 7-11.*
6. According to the 2010 Census, the State of Texas has a total population of 25,145,561 persons, including 11,397,345 non-Hispanic White persons (45.3%), 9,460,921 Hispanic persons (37.6%), 2,975,739 non-Hispanic black persons (11.8%), and 1,027,956 non-Hispanic Asian persons. *See Ex. 5 at 1.*
7. According to the 2010 Census, the State of Texas has a voting-age population of 18,279,737, including 9,074,684 non-Hispanic White persons (49.6%), 6,143,144 Hispanic persons (33.6%), 2,102,474 non-Hispanic black persons (11.5%), and 758,636 non-Hispanic Asian persons (4.2%). *See Ex. 5 at 4.*

---

<sup>3</sup> Citizen voting-age population data from the 2000 Census cannot be aggregated in accordance with OMB Bulletin 00-02. As a result, the population counts reported for Black and Asian persons do not include persons who self-identified on the census as Black or Asian in combination with White.

**Figure 1: Texas Population 1990-2010 by Race**

8. According to the 2008-2010 ACS, the State of Texas has a citizen voting-age population of 15,564,014 persons, including 8,871,710 non-Hispanic White persons (57.0%), 4,032,800 Hispanic persons (25.9%), 2,006,756 non-Hispanic Black persons (12.9%), and 449,648 non-Hispanic Asian persons (2.9%). *See Ex. 3.*<sup>4</sup>
9. According to the 2008-2010 ACS, the State of Texas has a poverty rate of 17.0%. Non-Hispanic White persons have a poverty rate of 8.8%; Hispanic persons, 25.8%; non-Hispanic Black persons, 23.3%; and non-Hispanic Asian persons, 11.9%. *See Ex. 4 at 7, 16, 25.*
10. According to the 2008-2010 ACS, 19.7% of Texans 25 years of age and older lack a high school diploma or equivalent. 8.3% of Non-Hispanic White persons lack a high school

<sup>4</sup> Citizen voting-age population data from the 2008-2010 ACS cannot be aggregated in accordance with OMB Bulletin 00-02. The ACS also does not report citizen voting-age population by non-Hispanic Black persons alone or non-Hispanic Asian persons alone. As a result, the population counts reported for Black and Asian persons neither include persons who self-identified on the census as Black or Asian in combination with White nor exclude Black or Asian persons who also identified as Hispanic. The same data is used for voting age population for consistency.

diploma, whereas 41.5% of Hispanic persons, 14.6% of non-Hispanic Black persons, and 13.0% of non-Hispanic Asian persons lack a high school diploma. *See Ex. 4 at 4, 12, 21.*

11. According to the 2008-2010 ACS, the median household income in the State of Texas is \$49,585. The median income is \$60,856 for non-Hispanic White persons, \$36,957 for Hispanic persons, \$36,731 for non-Hispanic Black persons, and \$64,245 for non-Hispanic Asian persons. *See Ex. 4 at 6, 15, 23.*
12. According to the 2008-2010 ACS, the State of Texas had an unemployment rate of 7.4%. The unemployment rate was 5.8% for non-Hispanic White persons, 8.2% for Hispanic persons, 11.9%, for non-Hispanic Black persons, and 6.3%, for non-Hispanic Asian persons. *See Ex. 4 at 5, 14, 23.*
13. According to the 2008-2010 ACS, 6.0% of the total persons in the State of Texas have no vehicles available to them. 3.8% of Non-Hispanic White persons do not have a vehicle available compared to 7.3% of Hispanic persons, 13.0% of non-Hispanic Black persons, and 4.6% of non-Hispanic Asian persons. *See Ex. 4 at 8, 17, 25.*
14. According to the 2008-2010 ACS, 64.2% of the total persons in the State of Texas reside in an owner-occupied housing unit. 72.2% of non-Hispanic White persons reside in an owner-occupied unit as do 57.7% of Hispanic persons, 45.2% of non-Hispanic Black persons, and 61.9% of non-Hispanic Asian persons. *See Ex. 4 at 8, 16, 25.*
15. According to the 2008-2010 ACS, 11.2% of all households in the State of Texas receive Supplemental Nutrition Assistance Program (“SNAP”) benefits. 5.3% of non-Hispanic White households receive SNAP benefits as do 19.4% of Hispanic households, 19.5% of non-Hispanic Black households, and 5.5% of non-Hispanic Asian households. *See Ex. 4 at 6, 15, 24.*

16. According to the 2008-2010 ACS, 9.0% of the total population of the State of Texas are veterans. 12.5% of non-Hispanic White persons are veterans as are 4.3% of Hispanic persons, 9.7% of non-Hispanic Black persons, and 1.9% of non-Hispanic Asian persons. *See* Ex. 4 at 4, 12, 21.

17. According to the 2008-2010 ACS, 11.5% of the total persons in the State of Texas have a disability. 13.2% of non-Hispanic White persons have a disability as do 9.5% of Hispanic persons, 13.3% of non-Hispanic Black persons, and 5.1% of non-Hispanic Asian persons. *See* Ex. 4 at 4, 12, 21.

Date: June 21, 2012

Not a U.S. citizen	1,160,091	+/-9,856

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census

Source: U.S. Census Bureau, 2008-2010 American Community Survey

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Median selected monthly owner costs with a mortgage (dollars)	1,813	+/-25
Median selected monthly owner costs without a mortgage (dollars)	630	+/-13
<b>GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME IN THE PAST 12 MONTHS</b>		
Occupied units paying rent (excluding units where GRAPI cannot be computed)	109,820	+/-2,606
Less than 30 percent	59.2%	+/-1.4
30 percent or more	40.8%	+/-1.4
<b>GROSS RENT</b>		
Occupied units paying rent	117,017	+/-2,771
Median gross rent (dollars)	860	+/-10

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Regions, subregions, and country code list.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC) 2010. The 2010 Census occupation codes were updated in accordance with the 2010 revision of the SOC. To allow for the creation of 2006-2010 and 2008-2010 tables, occupation data in the multiyear files (2006-2010 and 2008-2010) were recoded to 2010 Census occupation codes. We recommend using caution when comparing data coded using 2010 Census occupation codes with data coded using previous Census occupation codes. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/ioindex/>.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
