

Class of 2023 Standing at the Conclusion of Autumn Semester 2022

Students in the upper 5% of the class are ranked individually only at the conclusion of the academic year. The following distribution is made available primarily to enable students to determine their approximate class standing. Employers and others are cautioned to use this information judiciously. As the chart below reflects, *minor* differences in academic averages can have a very *significant* impact upon class standing.

Students were admitted to our institution via a competitive and careful admissions process and generally are superbly qualified for legal employment.

Approximate Cut-off	Percent of Class
93.7	15%
92.1	25%
91.1	35%
88.9	50%

Pursuant to Faculty Rule 9.12.C, in the case of a tie, “rank will be established by rounding downward, that is, if several students are tied at the bottom of a category, all will be in that category.” Accordingly, some categories may be slightly larger than the stated percentage. We do not provide ranking band cut-offs outside of what is listed above.

A global health emergency resulted in changes to course delivery and academic policies in the Spring 2020 semester. Where applicable, changes in Spring 2020 semester academic policies are reflected in the form of mandatory Satisfactory/Unsatisfactory grading designations. Some members of the Class of 2023 cohort may have been enrolled at Moritz in Spring 2020.
