

## Business, Corporate, Commercial and Tax Law Curriculum Plan

This curriculum plan aims to help you select courses if you are interested in a career in business, corporate, and/or tax law or focusing your studies on this area. We strongly encourage every student to pursue a broad legal education that includes courses beyond your area of core interest, such as bar exam courses, courses that help a student hone their “soft” lawyering skills, including communication skills, negotiation skills, and leadership skills, courses relevant to a student’s professional interests and goals, and courses that appeal to a student for any particular reason.

If you are interested in business, corporate, and/or tax law, the Assistant Dean for International and Graduate Affairs is available to meet with students for general academic advising. Please e-mail Dean Pham at [pham.521@osu.edu](mailto:pham.521@osu.edu) to request an appointment or to ask any questions you may have.

If you intend to pursue a **Concentration in Business Law or Corporate Law** (and earn a certificate of concentration alongside your LLM degree), you will be required to successfully complete at least 12 credits in this area of law out of the 24 credit hours required for the LLM degree. You may select any courses from among the courses listed below to complete the required 12 concentration credits for a certificate of concentration in Business Law or Corporate Law. We strongly recommend that you take “Business Associations” and “Contracts I” since they are foundational courses.
